Installation of mural		Before the play?	

1. Collection of caps has already begun.
2. Should this be an 8th grade project? No, each grade level will section
3. Should the design process include math concepts? (Scale, sorting, counting etc.)Yes
4. Can glueing be done during activity periods? Primarily in art class, if necessary in activity
5. I will reach out to the Borgh family and see if they can assist with some supplies. They are donating the wood, paint and glue.
6. This project is also about recycling and sustainability, can we provide information about what we are keeping out of the dumps. Math and science
