

Dear Parents/Guardians of our Tiny Toppers!

I hope all of our High Bridge families are well and enjoying the summertime weather!

Over the last month, High Bridge School District staff and community members have been working on plans to safely reopen our schools. As you are aware, these plans and requirements are comprehensive. The schedule that has been chosen and presented at the July 30th public BOE meeting for your review and county approval, is the Hybrid model which will reduce the number of students in each class allowing for social distancing and a lower student to teacher ratio. Additionally, families have the option to have their children continue to learn remotely.

Our Preschool Team has been meeting and collaborating to provide you with information, as your child prepares for attending our program this September. We are including the basic schedule on our website for your planning. The goal of our schedule is to ensure enhanced delivery of instruction through the High Scope curriculum. We continue to plan and adjust programming to continue to bring your child's instruction through asynchronous learning. Support information and services from Guidance and the School Nurse will also be posted and services will be available. The classroom teachers will meet with your child in small groups, large groups, and one to one through in-personal participation, as well as, remotely.

Be on the lookout for: A welcome letter from your child's teacher with Meet and Greet date and information. A FAQ sheet to help answer questions about the basic program and safety practice videos are provided on the district and preschool websites.

Looking forward to seeing you!

Lisa M Fallon
Preschool Supervisor
