High Bridge, NJ 08865

Dear Friends:

Canine Companions for Independence Northeast Region would like to join Bert & Christi Roling in thanking you for the support you have given puppy Maple II while in their volunteer home.

Without your help and support, we would not be able to place these exceptional dogs for exceptional people. Our service dogs are working with people with physical disabilities by pulling wheelchairs, turning on and off light switches, retrieving important items and responding to over fifty commands. Hearing dogs are alerting people who are deaf and hard of hearing to fire alarms, doorbells and ringing telephones. Children and adults are experiencing the love and companionship of these remarkable animals.

Since 1975, Canine Companions for Independence has helped over 5,700 people live their lives with increased confidence and promise. Canine Companions would not be able to continue to place assistance dogs with people with physical disabilities if it wasn't for our volunteers and those that support them. Our supporters are an integral part of our mission to provide highly trained Assistance Dogs, and with generous people like you to help along the way, we can continue to provide "Exceptional Dogs for Exceptional People".

The Northeast Region joins Bert & Christi Roling in thanking you for the support you gave Canine Companions puppy, Maple II; special people like you enable us to provide ***Exceptional Dogs for Exceptional People.***

Sincerely,

Debbie Knatz  
Northeast Regional Puppy Program Manager
