Greg,

To summarize my previous email, my concerns are linked to the controversies surrounding this guest. I've outlined below how this might impact the community's reception to this guest.

If you simply do not agree there is a concern, then please state that. However, I resent the implications that my concerns are based on political party. I am not only a resident but a local business owner, I have a mission to embrace community members regardless of their political identities.

Sincerely,  
Nicole Poko
